

Class of 1961
West High 45th Reunion

Sue Buenzli Hutchison

It's really hard to believe so many years have gone by but they have been wonderful.

We are very fortunate that we were able to take our children on some fabulous trips -- Africa, Orient, South Pacific. Last year we took them on a Mediterranean cruise. It is interesting that I have now visited over 100 countries.

Our son Heath is 28 and living in San Francisco and working as an accounts manager for a translation firm and his fiancé just graduated from Law School. Our daughter is 24, graduated from New York University a few years ago and is an aspiring actress in New York.

I went back to work full time 13 years ago at the Dane County Library Service, love it and have no plans to retire. We celebrated our 38th anniversary this year and looking forward to more fun and travel and family.
